Education

Institute of Engineering & Technology   (2022 – 2026)
B.E. in Information Technology – CGPA: 7.3/10

Kendriya Vidyalaya Bhind
Intermediate – 90.6%
Matriculation – 92%

Coursework

Data Structures and Algorithms, Database Systems, Artificial Intelligence, Object-Oriented Programming, Operating Systems, Computer Organization and architecture, Computer Networks, Web Technologies, Software Engineering

Technical Skills

Programming & Web Technologies: C++, Python, HTML, CSS, JavaScript, ReactJS, NodeJS
Database Technologies: MySQL, MongoDB
Tools & Frameworks: VS Code, Tailwind CSS, MySQL Workbench

Projects

Refyne | *HTML, JavaScript, ReactJS, Tailwind CSS, PicWish API, Vercel*

- Built a responsive image enhancement web app where users can upload an image, enhance it, and preview the results in real time.
- Designed a modular React(Vite) frontend with Tailwind CSS, ensuring clean component architecture and smooth user experience.
- Integrated PicWish Image Enhancement API and deployed the application on Vercel for public access.

Raptor | *HTML, JavaScript, MongoDB, ExpressJS, ReactJS, NodeJS, Render*

- Developed a full-stack AI chatbot with a React frontend and Express/Node.js backend, enabling real-time user interactions.
- Integrated AI APIs to enable intelligent, context-aware, real-time conversations.
- Implemented database support for secure and persistent chat history management, and deployed the application on Render for public access.

RedStore | *HTML, CSS, JavaScript, CSS Flexbox, Google Fonts*

- Built a responsive e-commerce website front-end with multiple pages including Home, Product Listings, Product Details, Shopping Cart and Account/Login.
- Designed interactive UI/UX & implemented mobile-responsive layout using Flexbox.

Training & Certifications

Data Engineering – *Essential Data Engineering concepts in AWS Services* | **AWS Skillbuilder**
July 2025
Data Visualization – *Empowering Business with Effective Insights* | **Forage (TATA Group)**
Feb 2025
